Enabling MSSPs to Boost Growth and Enrich their Services

Top Tier Security through a simple, scalable and profitable program

The MSSP market is expanding rapidly as more customers of all sizes are relying on Managed Security Service Providers (MSSPs) for expert-driven, reliable security services. This presents an unparalleled opportunity for MSSPs to grow with new clients and strengthen their presence with existing ones. However, this growth also brings challenges for MSSPs regarding management, resources, and profitability.

Crafted to address the challenges and dynamic needs of MSSPs, our program powers MSSPs with a suite of advanced security solutions, scalable technology, expert training, and dedicated support to drive growth and deliver exceptional value to customers.

Empowering MSSPs with unified central management, easy customer onboarding, and multi-tenancy, the AI-powered, cloud-delivered Infinity Portal offers efficient security operations and resource savings.

Profitability with Minimal Risk:

More than just competitive pricing, Check Point offers flexible payment methods tailored for MSSPs. They can choose between subscription and Pay-As-You-Go options, eliminating long-term commitments and upfront investments. This versatile approach boosts savings, provides predictable revenue, and maximizes profitability while minimizing financial risks.
